

Dartmoor
MULTI ACADEMY TRUST

Dear parents and carers,

Welcome to the weekly plan for your child. Please check the Classroom Dojo App or website frequently, as tutorial videos and class stories will be posted daily. These tutorials and video are designed to help both you and your child. As evidence of learning, please post samples of work and activities for your child's teacher to assess on Classroom Dojo.

We want to support you and your families as much as possible by providing help and support with the disruption to the daily routines that your child is experiencing, particularly in relation to their learning and education.

As well as your weekly plan, please keep an eye on your class posts on Dojo. Submitted home learning will earn points and the app is so easy to use. Class Dojo is a fantastic resource to communicate remote learning.

In order to get the most out of this remote learning provision, we do ask that the following is adhered to:

1. Teachers will respond to learning submitted during school hours. If submitted outside school hours teachers may respond the next day during working hours.
2. Parents should refrain from using this method of communicating with teachers, unless it is home learning related.
3. Parents who wish to contact members of staff on anything other than home learning should do so through traditional channels of e-mailing the school.

The key message is 'do what you can'. We are all learning in this new and fast-changing climate. Build in breaks, and, if you can, try to find time for your child to go outside and promote physical activity as much as possible. Above all, please do not put extra pressure on yourselves or your children and if we can help in any way, do get in touch.

With best regards,

Miss Bellew

English

Week Beginning: 13/07/20

A huge well done to all of the parents and children for your continued engagement and focus on the home learning. We are now in the final week of the summer term so I have put together a selection of fun, practical cross-curricular activities for you to have a go at. You might like to choose a different activity to do each day. Please continue to post your learning onto DOJO as I would love to see it and I will also share the learning on the DOJO story for your friends to see as well.

This week is also a time to reflect on all of your achievements through out the last academic year. You should all be very proud of yourselves!

Maths

Baking is a fantastic way to apply a range of maths skills and you can enjoy some cakes and biscuits at the same time. I have put some links to my favourite recipes so why don't you have a go at following the method and help with weighing ingredients and reading the numbers on the scales.

Year 2 you might make it more challenging by making a larger batch of cakes by doubling the recipe.

Design and Technology

Can you create your own model? You could use playdough or maybe recycled objects such as boxes, food packaging, bubble wrap, newspaper etc. You can choose what you create. This might be anything from an animal or plant to a planet in the solar system.

English

Can you plan and write a story? Pick a main character, a setting and a special object (such as a magic key, a treasure map, a broken lamp or a buried time capsule) and let your imagination run wild!

Once you have finished your story, think about how you are going to present it. You might like to create a book and write your story within it or you could type it up on the computer.

Science

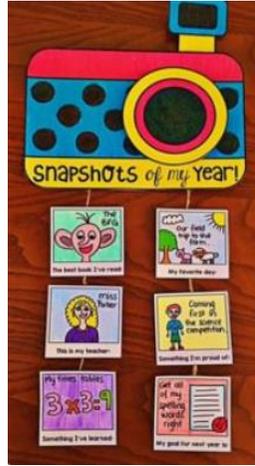

How strong is spaghetti?

One strand of spaghetti is not that strong but this experiment shows the strength that there is in numbers.

Add wooden blocks slowly (as shown in the picture) and see how many blocks you can add before the spaghetti snaps.

PSHE

collage.

Reflect on your year in Littlemoor. What have you enjoyed? Is there a lesson or event you particularly remember? This might be our forest school sessions or the party we had when we filled the marble jar. Draw the main lessons/events you enjoyed in Littlemoor to create a 'snapshot of the year'

Geography

Design your own country. Give it a name and draw its outline on a big piece of paper; plot its capital city, some exciting landmarks and interesting places to visit. What type of animals and plants can be found in your country? What language is spoken, what food is eaten and what is the national currency?

KS1: For a further geography challenge can you play 'name a country' with your family. Each player takes it in turns to name a country, starting with A, then B, then C, then D, etc. If you get stuck, look through an atlas and discover a new part of the world!

Keeping Active

Although we are in our final week of home learning it is still vital we stay both fit and healthy.

This week I would like you have a go at the following PE challenges. There will be ten DOJO points for anybody that can complete them all. Good luck!

Do 20 star jumps in 15 seconds.

Hold the plank for 25 seconds.

Do 20 squats in 30 seconds.

Complete 15 burpees within a minute.

Do 10 bunny jumps- an extra point for the person that travels the furthest distance.

Hop on one leg for 10 seconds.
