

Oke Tor homework for Summer 1

We were really impressed with your homework projects last term, and we can't wait to see what you create this half term!

Use your knowledge organisers to consolidate your learning and help you to become a Boudicca Champion!

As always, practise your weekly spellings and times-tables every week. Make sure you are reading daily and recording this in your reading record for a chance to win the reading basket.

The Oke Tor Team.

The Queen's Jubilee

This year marks the 70th year that our Queen has been on the throne. Write a poem or a letter for the Queen to mark this extraordinary occasion. If you are writing a letter, make sure you use formal language. If you are writing a poem, ensure you use tier 2 vocabulary.

We are learning about the amazing inventions that were designed during the Industrial Revolution. Design and make an invention that could be made in the future to accelerate technological progress. Maybe you will start another revolution!

Grow a plant from a seed or a leaf cutting. Record its progress. What does it need to keep it alive? What has a negative impact on its growth? Design your experiment using scientific language and create a hypothesis. Were you correct?
