

Boasley Cross Primary School Curriculum Intent

Our curriculum embodies creativity and promotes outdoor learning, providing a broad and balanced education that meets the needs of all children giving them the knowledge, skills and experiences necessary to prepare them for life in the 21st century as global citizens. Outdoor learning opportunities across all curriculum areas develop thinking skills (metacognition), problem solving, personal and social skills which feed into the vision and ethos of our school.

Our curriculum is meaningful and enriched to provide opportunities that support the development of the whole child promoting ability and resilience, as well as strategies for physical and mental well-being. Extensive enrichment opportunities expand the curriculum to allow a wide range of opportunities for our most vulnerable pupils. Through enrichment and outdoor learning, pupils develop their resilience and resourcefulness, can take on challenges and self-reflect.

Our curriculum encompasses not only the formal requirements of the National Curriculum but goes beyond the experiences of the classroom to ensure that our children are exposed to the richest and most varied opportunities that we can provide. We aim to enrich every child's school experience by creating an environment where they are encouraged to succeed and be the best that they can be.
