

## History curriculum

Our History curriculum includes termly topics for all children from Year 1 to Year 6. We aim to offer a high-quality history education that will help pupils gain a coherent knowledge and understanding of Britain's past and that of the wider world. It should inspire pupils' curiosity to know more about the past. Teaching should equip pupils to ask perceptive questions, think critically, weigh evidence, sift arguments, and develop perspective and judgement. History helps pupils to understand the complexity of people's lives, the process of change, the diversity of societies and relationships between different groups. It also helps children gain a sense of their own identity within a social, political, cultural and economic background. Because of this, we feel it is important for the subject to be taught discretely as well as incorporated within other curriculum subjects such as English and Art.
